EXPERIENCE

Awayer by Olfaction Pharmacy Pvt Ltd - D2C E-commerce

Product Builder & Consultant — Jul 2025 – Present

- Defined user centred information architecture, navigation, and product discovery for a Shopify storefront spanning 5 sub-brands and 100+ products, from an unstructured client brief.
- Designed responsive page layouts, visual assets, and a reusable component system for cross-brand consistency.

Giga Fun Studios

Aug 2023 – Oct 2024

Associate Experience Designer — Feb 2024 – Oct 2024

- Owned 0→1 experience design for *Rani's Case Files*, spanning product definition, core loop, progression, narrative, onboarding and UI, from concept to launch in under five months; reached 50K+ installs.
- Designed 8+ retention and monetisation systems across three mobile titles, including limited-time events, battle pass, quests, rewards and progression, iterating through behavioural data and repeated 20-player playtests.
- Translated complex gameplay and narrative systems into clear, responsive interfaces across 3 titles; created reusable interaction patterns, motion behaviours, in-game visuals, Play Store creatives and video ads, introduced GenAI prototyping that cut early visual exploration from roughly a week to about an hour.

Experience Design Intern — Aug 2023 – Jan 2024

Redesigned *Mili Match's* onboarding through funnel analysis, behavioural principles and usability testing, increasing tutorial completion by 18% and D1 retention by 1 pp; designed the experience across re-entry, events, rewards and narrative flows.

Tata Research Development & Design Centre (TCS)

UX Design Intern — May 2021 – Jul 2021

Led remote research into future phygital learning through interviews, qualitative coding and thematic synthesis; translated findings into opportunity areas, concepts and interactive prototypes for research leadership.
