Multidisciplinary Designer • M.Des. New Media Design from NID • B.Tech. (Hons.) from IIIT Delhi • My work spans mobile-game UX, design research, interactive storytelling and speculative design fiction. Open to exploring crafting new media & experiences across digital and physical spaces.

EXPERIENCE

Awayer by Olfaction Pharmacy Pvt Ltd - D2C E-commerce

Design Consultant — Jul 2025 – Present

Designing a brand website and mobile-first Shopify storefront across five sub-brands and 100+ products, including navigation, product discovery, visual design and a reusable component system.

Giga Fun Studios

Associate Experience Designer — Feb 2024 – Oct 2024

- Designed the experience for Rani's Case Files from concept to launch, including narrative, core gameplay, progression, onboarding and UI; launched in under five months and reached 50K+ installs.
- Designed interaction patterns, motion behaviours and in-game visuals across three mobile titles, translating gameplay and narrative into clear interfaces.
- Tested and refined events, quests, rewards and progression through behavioural data and repeated 20-player playtests.

Experience Design Intern — Aug 2023 – Jan 2024

Redesigned *Mili Match's* onboarding through funnel analysis, behavioural principles and usability testing, increasing tutorial completion by 18% and D1 retention by 1 pp; designed the experience across re-entry, events, rewards and narrative flows.

Tata Research Development & Design Centre (TCS)

UX Design Intern — May 2021 – Jul 2021

Led remote research into future phygital learning through interviews, qualitative coding and thematic synthesis; translated findings into opportunity areas, concepts and interactive prototypes for research leadership.
